Discover Prodeso® Drain 8!! The essential drainage and waterproofing function guaranteed by the most advanced system in the world.

PRODESO® DRAIN 8 is a draining, uncoupling and waterproofing patented membrane, with a total thickness of 8 mm, which can be installed even on not perfectly cured supports. The “air chamber” below the floor drains the water that has penetrated below it, it facilitates a fast drying of the adhesive and drastically reduces the rise of triacetates and the appearance of efflorescence.

The system, ideal for a correct laying on terraces and balconies even of large slabs, is completed with a band in polyethylene and elastic polypropylene and with a bicomponent waterproof adhesive. Quick and easy to install, the PRODESO® DRAIN 8 is very versatile and guarantees long life for outdoor flooring.
