PRONIVO

ANODIZED ALUMINIUM

PRONIVO is a transition and edging profile with a rounded shape in anodized aluminium with tap-down edge. It is ideal to give a clean-cut, elegant finish when joining and compensating differences in level of floors that are already laid and in differing or same materials e.g. ceramic tiles-wood-parquet. With its rounded shape it compensates for differences in thickness between 7 and 13 mm where no profile was installed at the time of laying. **PRONIVO** ensures a perfect finish and is easy to lay with the self-adhesive backing guaranteeing perfect adherence to the floor.
